	Sportsmanship Award Ranking						Build Award Ranking				Innovate Award Ranking							
	<p>Enter Scores from 1 to 5 in criteria columns at right, with 5 being best.</p> <p>Enter Ranks with tick marks; 1 tick mark is best.</p> <p>Teamwork, interview quality, and team professionalism</p> <p>Courteous, respectful, helpful to everyone on & off the field</p> <p>Treat all in the spirit of friendly competition & cooperation</p> <p>Respect & willingness to help event staff & other teams</p> <p>Shows excitement & enthusiasm throughout event</p>						<p>Professional construction, robust, clean, elegant</p> <p>Efficient use of mechanical and electrical components</p> <p>Dedication to safety and attention to detail</p> <p>Reliability on field, holds up under competition</p>				<p>Design demonstrates ingenious/innovative piece of engineering</p> <p>Innovative feature soundly crafted, effective solution to problem</p> <p>Solution integrated as part of overall well-crafted robot</p> <p>Students understand & explain necessity of innovative feature</p>				<p>VRC Awards Scoring & Ranking</p> <p>Judge Names</p> <p>Each time you meet a team, fill in a row of scores on each scoring and ranking sheet, then rank each team for each award. Compare each new team to the teams you ranked before, give the new team the appropriate number of tick marks, and add one tick mark to the rank of each lower-ranked team.</p> <p>Remember to look for Judges' Award Candidates!</p> <p>The Judges' Award goes to a team the Judges decide is deserving of special recognition. Judges consider a number of possible criteria for this award, such as team displays of special attributes, exemplary effort and perseverance at the event, and team accomplishments or endeavors throughout the season that may not fall under existing awards, but are nonetheless deserving of special recognition.</p> <p>Remember to use the Design Rubric for the Design Award.</p>			

Notes:

Enter Scores from 1 to 5 in criteria columns at right, with 5 being best. Enter Ranks with tick marks; 1 tick mark is best.																		
	Robot design consistently high scoring and competitive			Amaze Award Ranking			Well-crafted, unique design solution, creative thinking											
	Solid mechanical design, robustly constructed			Create			Highly creative design process and methodology											
	Programming consistently successful, use of sensors			Create Award Ranking			Ambitious and creative approaches to playing the game											
	Amaze Award Ranking			Create Award Ranking			Energy Award Ranking											
	Maintains a high level of excitement and enthusiasm			Energy			Enriches event for all by passion for competition & robotics											
	Energy Award Ranking			Think Award Ranking			Programming clean, well documented, easy to understand											
	Clear programming strategy to solve the game challenge			Think			Clear programming strategy to solve the game challenge											
	Programming management process with version history			Think Award Ranking			Autonomous code is consistent and reliable											
	Autonomous code is consistent and reliable			Think Award Ranking			Remember to use the Design Rubric for the Design Award.											
	VRC Awards Scoring & Ranking			Judge			Names											
	Each time you meet a team, fill in a row of scores on each scoring and ranking sheet, then rank each team for each award. Compare each new team to the teams you ranked before, give the new team the appropriate number of tick marks, and add one tick mark to the rank of each lower-ranked team.			Remember to look for Judges' Award Candidates!			The Judges' Award goes to a team the Judges decide is deserving of special recognition. Judges consider a number of possible criteria for this award, such as team displays of special attributes, exemplary effort and perseverance at the event, and team accomplishments or endeavors throughout the season that may not fall under existing awards, but are nonetheless deserving of special recognition.											
	Remember to use the Design Rubric for the Design Award.			Notes and Comments
