

Emcee Announcements

To Announce During Events

Fill the down time between matches with information that is of interest to the audience and will support the event, including helpful information about REC Foundation and VEX programs, as families have students of all ages with them. Print out this page and use the table below as a script for the various program announcements.

Program	Announcement
Online Challenges	The REC Foundation Online Challenges are open from September 7, 2016, until January 11, 2017. Topics range from programming to CAD design, video production to website layout, and much more. All challenges offer great prizes, and many even offer an opportunity for team qualification for VEX Worlds! Go to challenges.robotevents.com to check them out.
Certification	Give your students the advantage they deserve, with the REC Foundation Pre-Engineering & Robotics Industry Certification Programs. Find out how at www.roboticseducation.org/Certifications .
Scholarships	The REC Foundation Scholarship Program is available to students participating in the VEX Robotics Competition, offering more than 350 scholarships valued at nearly \$4.5 million. Visit www.roboticseducation.org/scholarships for more information.
Alumni	Did you know there is a VEX Robotics Alumni Community? We're looking for VRC grads and VEX U participants 18 years of age or older. Get connected at www.roboticseducation.org/alumni to learn about networking, internship, career and volunteer opportunities.
Social Media	The REC Foundation is active on social media. To keep up with the latest news and events from the VEX IQ Challenge, VRC, and VEX U, visit www.roboticseducation.org/media/ for details.
Forums	Join the VEX Forums to connect with an online community of VEX participants discussing the latest news, technical support, and competition questions. Create your free account on www.vexforum.com and collaborate with like-minded people from around the world.
