

VEXTEXT Instructions

During this VEX Robotics Competition, we will be using VEXTEXT, which allows teams to be alerted to upcoming matches using SMS text messages delivered directly to team members' phones.

Please provide up to three mobile telephone numbers to receive match alerts for your team (We can only accept numbers from participants aged 13 and over):

VEX Team Number: _____

Telephone Number 1: _____

Telephone Number 2: _____

Telephone Number 3: _____

Once we have entered your phone number, an invitation text will be sent to the phone. A response of "yes" is required to activate texting. **We cannot guarantee cellular service in any location, and as a result, teams are responsible for watching the match schedules and being on time for their matches regardless of having received a text alert. "I did not receive a text message," is not a reason to request that a match be played again if a match is missed.**

****Normal text messaging costs apply.**
