

Industry Certifications – Pricing Sheet

Overview

The Robotics Education & Competition Foundation is proud to provide schools, students, and communities with industry certifications in the subjects of Pre-Engineering and for Robotics. This document represents current pricing for certifications. **Please plan to have your payment or purchase order received and all proctor agreements completed and delivered to the REC Foundation a minimum of five working days prior to your scheduled testing dates to receive the certifications voucher codes and instructions.**

The Three Step Ordering Process

1. **Order and pay** with a credit card, purchase order, or check.
2. **Complete Proctor and non-disclosure agreement.** Submit names and email addresses for **all new individuals and past Proctors** involved with the testing process. These individuals will be sent a Proctor and non-disclosure agreement electronically through DocuSign.
3. **Receive exam voucher codes.** After completed the Proctor and non-disclosure agreements and payment processed. The REC Foundation cannot release exam voucher codes until all Proctor agreements are signed and the payment is processed. Instructions for the Proctor and student will be sent with the voucher codes to the purchaser for distribution to the Proctors.

Pre-Engineering Certification

Each Pre-Engineering Certification purchased includes four separate voucher codes, one for each of the required three modules, plus an additional code to use at the Instructor’s discretion for additional codes, and student test retakes. These include the “Fundamentals of Engineering Module,” which is required before proceeding to other engineering area modules, and any two of the eight engineering modules at roboticseducation.org/certification.

Pre-Engineering Certifications	Price
1	\$40.00
10	\$400.00
25	\$1,000.00
50	\$2,000.00
100	\$3,500.00
200	\$6,500.00

Robotics Certification

Each Robotics certification purchased Includes four voucher codes for the required engineering Area Sections for each Robotics Certification, plus an additional code to use at the Instructor’s discretion for additional codes, and student test retakes. These include the “Fundamentals of Engineering Module,” which is required before proceeding to other engineering area modules, and specifically three of the eight engineering modules in Electrical, Programming, and Mechanical at roboticseducation.org/certification.

Robotics Certifications	Price
1	\$50.00
10	\$500.00
25	\$1,250.00
50	\$2,500.00
100	\$4,500.00
200	\$8,500.00

Note: Student earns BOTH the Pre-Engineering AND the Robotics Certification because the requirements for the Robotics Certification meet and exceed the Pre-Engineering Certification requirement.

Proctoring: After a purchase order or credit card is received, a proctoring agreement will be sent to the contact provided to be returned prior to the certification/voucher codes being released. Two proctors required, who are not the program instructors, a single designated testing staff member or as required by your state or district.
