

## Emcee Announcements

### Overview

Emcees at VEX Robotics events should fill the down time between matches with helpful information about the REC Foundation and VEX programs. Print out this page and use the table below as a script for the various program announcements.

Program	Announcement
<b>Online Challenges</b>	The REC Foundation Online Challenges are open until <b>January 10, 2019</b> . Topics range from programming to CAD design, video production to website layout, and much more, including many challenges with updated activities for the new season! All challenges offer great prizes, and many even offer an opportunity for team qualification for VEX Worlds! Go to <b>challenges.robotevents.com</b> to check them out.
<b>Girl Powered</b>	Join the movement to redefine the face of STEM, by creating a more inclusive environment for all students within the robotics community. Find out how you and your team can become Girl Powered & take the pledge today at <b>GirlPowered.com!</b>  Engaging all students in robotics is a team effort. Find out more at <b>GirlPowered.com!</b>
<b>Certification</b>	Give your students the advantage they deserve, with the REC Foundation Pre-Engineering & Robotics Industry Certification Programs. Find out how at <b>www.roboticseducation.org/Certifications</b> .
<b>Scholarships</b>	The REC Foundation Scholarship Program is available to students participating in the VEX Robotics Competition, offering nearly 400 scholarships valued at nearly \$4.5 million. Visit <b>www.roboticseducation.org/scholarships</b> for more information.
<b>Alumni</b>	Did you know there is a VEX Robotics Alumni Community? We're looking for VRC grads and VEX U participants 18 years of age or older. Get connected at <b>www.roboticseducation.org/alumni</b> to learn about networking, internship, career and volunteer opportunities.
<b>Social Media</b>	The REC Foundation is active on social media. To keep up with the latest news and events from the VEX IQ Challenge, VRC, and VEX U, visit <b>www.roboticseducation.org/media</b> for details.
<b>Forums</b>	Join the VEX Forums to connect with an online community of VEX participants discussing the latest news and technical support. Create your free account on <b>www.vexforum.com</b> or <b>www.vexiqforum.com</b> and collaborate with like-minded people from around the world. The Official Game Manual Q&A can be found on RobotEvents.com.
