

Event Partner
Background Check Process
in RobotEvents.com

All US Event Partners are required to complete a background check before hosting an event. General information regarding background checks can be found in the [EP Background Check FAQ](#). Any questions regarding the background screening process can be directed to hr@roboticseducation.org.

For a Regional Support Manager to approve an event, all Event Partners hosting the event must have completed their background screening process and be marked as “Eligible.” If an Event Partner has not completed their background check, they will see the following message in red:

“Unfortunately, due to missing content, we cannot approve your event at this time. Please visit the links on the right-hand side marked by a red “x” and fill in the required information.”

EP Event Edit Screen

EP is alerted that their background check needs to be completed.

Unfortunately, due to missing content, we cannot approve your event at this time. Please visit the links on the right hand side marked by a red "x", and fill in the required information.
