

# How to View Digital Engineering Notebooks

Event Partners have two options for viewing Digital Engineering Notebook links. Login to RobotEvents.com, click Admin, and then navigate to your event.

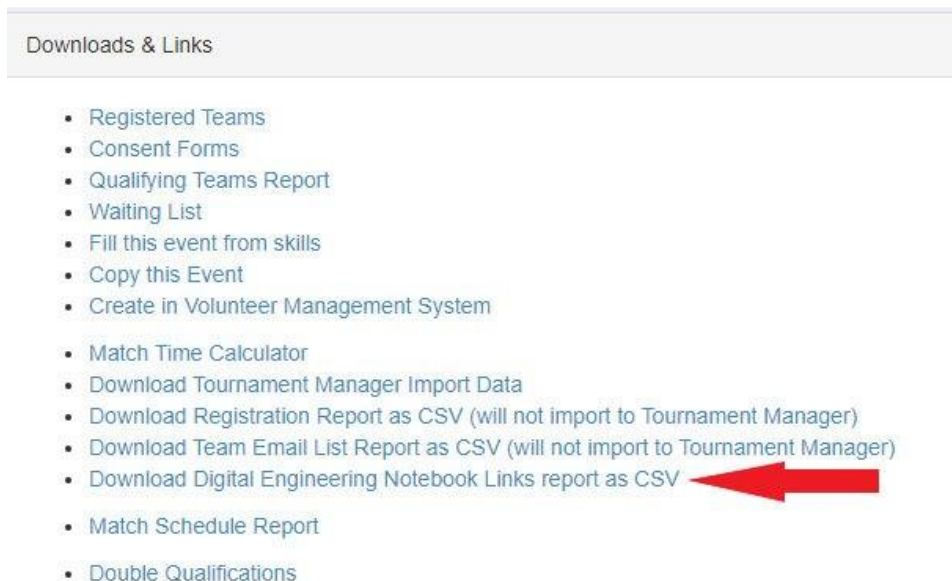

## Option 1: “Downloads and Links”

Once in your event, go to the “Downloads and Links” tab on the upper right-hand side.

Once in the “Downloads and Links” tab, click “Download Digital Engineering Notebook links report as CSV” for a simple list of team numbers and notebook links for EPs to share with their Judge Advisor.

## Option 2: “Registered Teams” List

Scroll down to the “Registered Teams List” on the right-hand side.

Once in the “Registered Teams” tab, click the “Download Digital Engineering Notebook Links report as CSV” at the top of the page. This will download a simple list of team numbers and notebook links that EPs can share with Judge Advisors.
